

JULY 1, 2024

INCLUSION POLICY (V11) 2024-2025

THE INDIAN HIGH SCHOOL, DUBAI

CONTENTS

- 1. Rationale**
- 2. Scope**
- 3. Policy Statement**
- 4. Inclusion Support Team**
- 5. Responsibilities of Inclusion Support Team**
- 6. Partnerships for Inclusion**
- 7. Inclusive Culture, Commitment and Ethos**
- 8. Inclusive Admission Practice**
- 9. Identification and Intervention**
- 10. Structure of Provision**
- 11. Identifying Gifted and Talented Students**
- 12. Lesson Observation and Feedback (Learning Walks)**
- 13. Differentiated Curriculum and Support**
- 14. Inclusive Teaching and Classroom Cultures**
- 15. ASDAN (*Award Scheme Development and Accreditation Network*)**
- 16. Assessment and Outcomes**
- 17. Record Keeping**
- 18. Behavior Intervention Plan**
- 19. Self-Advocacy Skills**
- 20. Resourcing for Inclusive Education**
- 21. Staff Professional Learning Plan**
- 22. Categorization framework for students of determination**
- 23. Parent Partnership: Communication, Support & Guidance to Parents of SDs**
- 24. Parent Referral for Counselling Support**
- 25. Definitions**
- 26. Evaluation and Review**
- 27. References**
- 28. Effective and Revision Dates**

1. RATIONALE

The purpose of this policy is to establish the process and considerations that guide the institution in providing inclusive education and support to Students of Determination. This is to maximize the potential of all students who experience barriers to learning or are gifted and talented in scholastic and co-scholastic areas.

2. SCOPE

The policy applies to all students of determination, who need special learning support, counseling support, personalization of learning and assessment strategies in the mainstream classrooms. It applies to all such students in all levels of K-12.

3. POLICY STATEMENT

The central focus of this policy is to ensure access to education for students of determination by identifying and removing barriers that prevent or restrict their participation and engagement in a relevant and appropriately challenging school-based learning environment. We actively develop a shared understanding of the agreed values and standards of inclusive education among all stakeholders. The policy is based upon *Dubai Inclusive Education Policy Framework (2017)*, *'A revised categorization framework for students of determination (2019-2020)'*, *Implementing Inclusive Education: A Guide for Schools (2019)* *'Directives and Guidelines for Inclusive Education'* (Jan. 2020), *Advocating for inclusive education - A Guide for Parents (March 2021)* the *Federal Law 29 of 2006 and the Dubai Law 2 of 2014, the School Inspection Framework, General Rules for the Provision of Special Education Programs and Services (Public & Private Schools)*, the Knowledge and Human Development Authority (KHDA) guidelines and best international practices.

The policy is implemented through a detailed procedure which clearly states the comprehensive identification process of students of determination, the revised categories, the kind of support and intervention provided for each category and the role and responsibility of all concerned at various levels, headed by the Governor for Inclusive Education. There are no hidden charges or any extra cost for the support provided. There is a provision for admitting students of determination (refer to the Admission Policy) and parents are encouraged to declare the same while applying for admission. The function of the entry assessment process for applicants is to inform the school's provision planning and enable them to be enrolled in the school.

MOU between SEED Special Education Center and IHS

- a. The Agreement is to ensure that all identified students of determination, enrolled in the SCHOOL, receive the planned assessment and intervention.
- b. The Agreement will ensure that guidance will be provided to the teachers for the preparation of Individualized Education Plans (IEPs) of those students who have been assessed by SEED.
- c. Provide screenings for all students enrolled in the school in collaboration with SEED.
- d. Provide procedural safeguards and due process for all eligible students enrolled in SCHOOL during intervention provided by SEED at school.
- e. Agree to provide therapy and intervention services within the school premises, by DHA and CDA licensed professionals.
- f. Accept referrals from SCHOOL when a child enrolled in SCHOOL is suspected of having a qualifying disability (as per revised guidelines for categorization by Knowledge and Human Development Authority -KHDA) and follow the referral process in compliance with the regulations set forth.

4. INCLUSION SUPPORT TEAM

Governor for Inclusive Education	Mr. Ajit Moorkoth	
School Principal	Ms. Mala Mehra	
Vice Principal/ Head of Inclusion & Wellbeing	Ms. Sonia Kohli	
Inclusion & Wellbeing Champion	Ms. Rashmi Ravindran	
Leader of Provision	Ms. Aleena Babu	
SENCo.	Ms. Saheeda Mohammed	
Inclusion Support Teachers (16)	Ms. Priya Joseph Ms. Femina Abdulwahab Ms. Sheena Ajith Ms. Sunanda Suveer Ms. Gabriela Rozario Ms. Rekha Mukundan Ms. Manisha Garg Ms. Nazeera Shafi	Ms. Sarika Girish Ms. Rebecca Poonnen Mr. Jibin Varghese Ms. Sabba Afroze Ms. Mahima Chopra Ms. Shabina Musarah Ms. Ashita MA Ms. Sindhu Rajesh
Counselors (7)	Ms. Poonam Bhatia Ms. Namitha Elizabeth Jacob Ms. Tabassum Faisal Shaikh Ms. Aleena Babu Ms. Husaina Parvin Ms. Reneya. J. G Ms. Jessica D'Souza	
Special Educators (4)	Mr. Kanaga Subramaniam K Ms. Bharti Chatterjee Ms. Anandi Dharmalingam Ms. Saheeda Mohammed	
Speech Therapist	Ms. Nisha Deepak	
Learning Support Assistants (6)	Mr. Arunraj R V LSA General Ms. Karishma Punjabi, LSA General Ms. Sindhu Bhatt, LSA General Ms. Sapna Kalghati, LSA General Ms. Asmaa Zidaan LSA Arabic Ms. Batoul Kauli, LSA Arabic	
Parent Representatives	Ms. Sangeetha Moothedath Ms. Anupama Nair	
Parent Focus Group Representatives (8)	Gr. 5&6 boys: Anupama Nair (6Q) Gr. 5&6 girls: Vinod Sankunni (6H) Gr. 7&8 boys: Prakash Devassy (7T) Gr. 7&8 girls: Mohsina Shaikh (8I) Gr. 9&10 boys: Mymoon Shibu (10U) Gr. 9&10 girls: Bhavika Manwani (10H) Gr. 11&12 boys: Kyati Sumit Doshi (12 Com. I) Gr. 11&12 girls: Amar Trivedi (12 Com. E)	

5. RESPONSIBILITIES OF INCLUSION SUPPORT TEAM

Members of the Inclusion Support Team:

- be proficient in inclusive education techniques, curricular modification, personalization of learning objectives and assessment strategies;
- meet on a regular basis, typically once a week;
- maintain minutes of the meetings and utilize effective systems to follow-up on specific actions and strategies;
- work in close collaboration with classroom teachers and other educational staff to support the education of students who experience barriers to learning in classroom environment by providing coaching and support to teachers on a timely basis;
- assign learning support assistants to individual students/groups of students who experience barriers to learning and/or class groups as needed. The focus and impact of their support is routinely reviewed, and their allocation may change in accordance with student and teacher need;
- where appropriate, develop partnerships with special centers and external professionals who work with individual students. These partnerships will be responsive to the needs of students who experience barriers to learning and their families to ensure access to high quality inclusive education;
- demonstrate and apply knowledge and understanding of inclusive education values and principles;
- work with parents, caregivers and professionals to develop appropriate individual education plans for individual students who experience barriers to learning;
- collaborate effectively with parents, other teachers, specialized professionals and other service providers, including those working as members of a multi-disciplinary team;
- collaborate with support teams to create opportunities that facilitate the meaningful participation of all students in the common learning environment (e.g., lesson planning, classroom set-up, purposeful student groupings);
- prioritize student relationship building, followed by familiarity with the student's learning characteristics, performance levels, and personalized learning outcomes;
- apply formative assessment, universal design for learning, differentiation and other learner-centered activities, so that students can pursue and achieve curricular-based learning goals;
- engage in coaching and co-teaching opportunities with support teachers and other colleagues to accommodate all students within an inclusive learning environment;
- assist teachers in the provision of instruction to students who experience barriers to learning.

The management secures the support of a qualified **Governor for Inclusive Education** who works with the school leaders to ensure the implementation of the Inclusion policy, suggests provisions for improvement and evaluates the quality of education provided by the school with common inclusive education standards. The governor for inclusive education is committed to developing the knowledge, understanding and skills required to provide effective support and challenge to the school as it progresses towards realizing a vision of inclusion in practice.

This includes supporting the governing board to:

- set strategic direction through a clearly stated inclusive vision and ethos;
- hold the designated school-based inclusion support team accountable for the development and implementation of an appropriate inclusive education improvement plan;
- recommends financial investment to ensure that targeted plans are sufficiently resourced;

The school principal plays a uniquely powerful role in enabling students, staff, and parents to think and act in a more inclusive manner. The **Principal** in partnership with the inclusion support team:

- communicates a vision of inclusion, ensuring the engagement of the entire school community;

- conducts a school-wide review of current practice to highlight examples of best practice to grow further, and to identify areas which require targeted improvement.

Group Head for Circle of Happiness, Inclusion and Wellbeing assists in the promotion, direction, and oversight of high standards of teaching and learning, student achievement and progression through effective inclusion for students with learning differences, Gifted and Talented students and students receiving counselling support. Ensuring inclusive practice is developed and incorporated through all aspects of the school and adhering to the KHDA and UAE law and requirements of Inclusive Education. The concerned:

- develops and implements a comprehensive and strategic inclusive education improvement plan;
- ensures that all staff receive the support they require so that inclusive approaches to teaching and learning are embedded within their practice;
- provides an annual program of continued professional development for all staff at all levels across the school;
- applies a rigorous system of monitoring and review to track progress and inform revisions to strategic plans;
- ensures that recruitment and induction processes prioritize inclusive practices as a key component of professional roles.

The ***Inclusion Champion*** works as a bridge between the Counseling and Special Education Department and the Mainstream classrooms to ensure that the modalities of the procedure are carried out and specifically, modifications, concessions granted reflect in the IEP of students of determination with learning difficulties. The concerned takes onus of bringing about more awareness towards the entire program which leads to cultural transformation and streamlining of the entire process. Inclusion champion advocates for the inclusion of students of determination with a passionate belief in the value of inclusive systems of education.

The inclusion champion plays an important role in:

- promoting ideas that support the development of inclusive attitudes and approaches;
- engaging thoughtfully with feedback from the community through positive relationships and well-developed interpersonal skills;
- sharing information with senior leaders;
- providing the motivation and support required for improvement over time.

The ***Leader of Provision for Students of Determination*** holds deep knowledge about barriers to learning experienced by students, the associated challenges for teachers and the impact on learning, development, and outcomes. The leader of provision plays a crucial role in supporting classroom teachers to identify and develop specific approaches in the classroom so that every student is empowered to succeed. Particularly important aspects of the role are:

- working alongside teachers to observe, assess and identify special educational needs;
- working collaboratively with other in-school specialists, such as speech therapists, counselors and special educators, to promote student learning, development and wellbeing;
- providing advice and guidance to both teachers and parents;
- promoting high expectations of student learning and achievement;
- supporting the development of relevant and meaningful learning activities;
- facilitating collaborative meetings to promote the development of ILP/IEP;
- monitoring and supporting classroom teachers in the development and implementation of specific strategies to lower barriers to learning;
- implementing evidence-based programs of intervention for individual and small groups of students.

SENCo. supports in monitoring the impact of interventions and their outcomes for students with learning difficulties as part of the school's full range of attainment and learner related information. SENCo's activities include:

- identification of students who experience barrier to learning in the school;
- tracking and monitoring the progress made by the students of determination;
- ensuring there is high quality teaching and intervention for students with learning differences through joint observation and feedback;
- plan provision and ensure consistency in its implementation.

Inclusion Specialists include Counsellors, Special Educators and Speech Therapists. They are responsible for fostering a culture of inclusion within the school community. They facilitate the implementation of inclusive practices and support the needs of diverse learners.

Counsellors,

- play a crucial role in identification, administration of psychometric assessment and collaboration with all stakeholders in developing and implementation of Individual Education Plan/Behavior Intervention Plan/Individual Support Plan;
- provide guidance and training to educators on inclusive teaching strategies, differentiation, and accommodations to meet diverse learning needs ;
- engage with parents and the wider community to promote understanding, acceptance, and support for inclusion initiatives;
- gather data and assess the effectiveness of inclusion practices, using this information to inform decision-making and continuous improvement;
- offer immediate support and intervention for students during crises or challenging situations affecting student's wellbeing;
- advocate for the mental health and well-being of all students, promoting an inclusive and supportive school environment.

Special Educators,

- create and implement Individualized Education Programs (IEPs) for students of determination, ensuring their academic and social success;
- collaborate with general education teachers to adapt curriculum, develop strategies, and provide necessary accommodations for students with diverse learning needs.
- regularly assess and monitor student progress, adjusting teaching strategies and interventions as needed to support their growth.
- work closely with parents to communicate progress, discuss goals, and involve them in the educational journey of their child.

Speech Therapist,

- conduct assessments to identify speech, language, and communication disorders in students, using various tools and methods to evaluate their needs accurately;
- develop and implement individualized therapy plans to address speech and language difficulties, providing targeted interventions to improve communication skills;
- collaborate with teachers and other specialists to integrate speech and language goals into the overall educational plan, ensuring consistency and support across all aspects of learning;
- educate parents on strategies and exercises to support their child's speech and language development at home, fostering a collaborative approach between school and home environments;

- regularly monitor and assess students' progress in speech and language therapy, documenting improvements and providing comprehensive reports to inform educational planning.

Inclusion Support Teachers provide support through:

- the identification of the specific needs of individual students;
- the development of specific and personalized individual education plans;
- the development of instructional and educational strategies;
- the modification and adaptation of curriculum structures;
- the development of appropriate assessment procedures;
- modeling appropriate teaching strategies such as co-teaching or team teaching with the classroom teacher;
- the operation of the Inclusion Support Team.

Their activities include:

- working directly with student(s) to determine individual needs and collect information about the student's strengths and weaknesses necessary to complete IEP/BIP and ILP;
- providing instruction to student(s) individually or in a small group in the common learning environment;
- providing instruction to student(s) individually or in a small group outside the common learning environment;
- dealing with social, emotional, behavioral and/or family situations (e.g., housing, food, health and mental health conditions) of students;
- working closely with the school principal to ensure the effective administration and operation of the Inclusion Support Team;
- maintaining effective communication with parents as well as any service providers working with the family or the child;
- facilitating the transition of students who experience barriers to learning from segregated into mainstream settings; engage in class-wide monitoring of student learning (e.g., independent or small-group work) identified and planned by teachers and the Inclusion Support Team;
- prepare learning materials for use by student(s) under the direction of the teacher;
- collect formative assessment data on student performance and progress, based on systems designed by teachers or Inclusion Support Team;
- facilitate peer interactions based on guidance from the teacher and Inclusion Support Team. Invite students to help each other and, as required, also engage in non-instructional tasks (e.g., group supervision such as in the cafeteria, on the playground, bus boarding, field trips) identified by teachers and the Inclusion Support Team;
- support teachers in an active and sustained manner across the year in accordance with the time allocation guidelines given in the *'Dubai Inclusive Education Policy Framework'*

Learning Support Assistants:

- work closely with class teachers to ensure IEP targets link to, and support class-based targets where possible;
- work with children to ensure the child understands the next steps in their learning and how they can achieve their targets;
- contribute to the education of students in inclusive schools and classrooms by implementing individual instruction;
- apply current best practices and strategies learned through professional development courses, in-service training or workshops.

Parents and guardians are given the opportunity to be involved in many aspects of their child’s education. Class teachers, alongside Support Teachers and Section Supervisors, have the responsibility to invite parents and guardians to discuss their child’s progress, the targets their child is working towards, and the support their child is receiving.

Class teachers and subject teachers set targets for all students of determination and take measures to ensure learners are involved in understanding their targets and how they can achieve them.

6. PARTNERSHIPS FOR INCLUSION

School–community partnerships at the Indian High Group of Schools help implement a system of integrated services for students of determination, often providing supports and resources to meet staff, family, and student needs that go beyond what is typically available through school. Reciprocally, community partners benefit from their relationships with the school, including learning about schools’ inclusive culture. We have agreements with the following local organizations.

- SEED Special Education Center (SEED within school)
- ASDAN (Award Scheme Development and Accreditation Network)
- Switch4Schools
- Dubai Autism Center (DAC)
- Al Jalila Foundation
- Rashid Centre for Disabled
- Al Noor Training Centre for Persons with Disabilities

7. INCLUSIVE CULTURE, COMMITMENT AND ETHOS

An ethos of positive classroom culture and inclusive education permeates all aspects of the school system.

- School exercises a positive admissions policy, which welcomes a diverse range of learners, allows a waiver of eligibility test and direct admission to students of determination upon providing an external assessment report from an authorized testing agency approved by MOH, DHA and CDA resulting in greater diversity of needs.
- A qualified Governor for Inclusive Education leads to greater accountability to carry forward the whole school vision of Inclusion aligned with the ‘Dubai Inclusive Education Policy Framework.’
- The school system embodies a strong commitment to fostering a positive classroom culture across through training of teachers on SEL competencies.
- School places a strong emphasis on ongoing professional development for our staff, ensuring they are phases equipped with the latest knowledge and strategies related to inclusive education, sensitize them, and increase their awareness about and how to identify and support learners who have learning difficulties.
- Provide opportunities for parents and caregivers to better understand barriers to learning, and the resources and support mechanisms available to them and their families.
- Develop promotional materials within the school to raise awareness and reduce stigma on issues relating to inclusion and promote the inclusion of students of determination.
- Incorporates and integrate a monitoring and evaluation plan to track and measure any impact on attitudes, beliefs and experiences of students who experience barriers to learning.
- Increase the representation of all types of learners, particularly those who experience barriers to learning, in education and promotional materials including print and on-line sources, literature, toys, the media and other relevant sources of information to highlight the abilities and capacities of individuals who experience barriers to learning.

- Safeguards the health, safety, and welfare of all pupils, with a particular focus on vulnerable groups.
- School is fully equipped with facilities for Students of Determination such as modification of washrooms, provision of lifts and club-carts based on needs, and ramps leading to an inclusive physical environment.
- A well-defined Circle of Happiness, Inclusion and Wellbeing raises the quality of support for students of determination in lessons and outside the classroom.
- AGREE - Appraisal Grading and Reward format is developed for the circle of inclusion. Six performance standards have been identified for Counsellors, Special Educators and LSA. These standards are based on research on international best practices, KHDA guidelines for inclusion, Wellbeing Matters guidelines and CBSE Mental Health and Wellbeing manual.

8. INCLUSIVE ADMISSION PRACTICE

School welcomes students of determination and has a learning support program, addressing the individual needs of all students of determination, gifted and talented. In the case where a child's specific need has not been previously identified, the school reserves the right to review the situation in order to assess the capacity to address his/her needs within their existing level of provision. We expect parents to work closely with us if a particular educational need is identified during or following the admission process.

School adopts an admission process that:

- ensures that students who experience barriers to learning will be provided with the support, accommodations and curricular modifications required to enable equitable access to educational opportunities;
- preference for "sibling priority" will be given to students who experience barriers to learning subject to availability of seats;
- aims to be inclusive at all times unless it is not possible to fully support the particular child due to constraints beyond our control e.g., infrastructure or personnel;
- proactively identify practices that may restrict, limit, or prevent a student from accessing education alongside their peers, and plans action to ensure minimization of any impact upon a student's learning experience and outcome.
- ensures compliance with the requirements of *'Dubai Inclusive Education Policy Framework.'*
- Admission test for students of determination is waived off provided parents indicate the same on the application form for admission and provide assessment report from an authorized testing agency approved by *MOH and DHA.*
- In grade 11, tailor made combination will be offered to students of determination, subject to availability of seats.
- In exceptional circumstances, an enhanced level of provision may be registered through an individualized service agreement with KHDA including a stated individualized service fee.
- In all cases, if school makes the decision not to enroll a student, a complete Non-Admission Notification Form prior to any final decision being taken is submitted to KHDA for monitoring and regulation purposes.

9. IDENTIFICATION AND INTERVENTION

The identification process is on-going as teachers, parents and students can submit referrals at any point in the year. Circle of Inclusion provides training to educators at all levels, to equip them and increase their awareness about the experience of SEND and how to identify and support students who have learning difficulties. We aim to identify

learners who have any difficulties as soon as possible so that appropriate support can be given from an early age. The school employs multiple avenues to identify students with Special Educational Needs (SEN) to ensure a comprehensive and inclusive approach to support all learners. These identification methods include:

School-wide Screening by SEED within Schools

Periodical school-wide screenings are conducted by SEED under the guidance of Governor of Inclusion to identify potential students who may be experiencing barriers to learning. This process involves school wide screening by educators using the School Wide Screening – SNQV, followed by detailed screening conducted by internal Inclusion Specialists. Standardized assessments and observations are conducted further to detect various learning and developmental needs either by external specialists or internal inclusion specialists.

School Internal Referral System

The **staff is sensitized** with the knowledge and definition of the various categories for students of determination through regular workshops, reading material, case studies and hands-on classrooms experience. Parents are encouraged during the **orientation program** in the beginning of the academic year to share the information about their ward with medical issues that need special handling, learning deficits they may know of or behavioral and emotional issues. Parents have access to an online Parent Referral Form, and they are encouraged to refer students whom they suspect may have special educational needs. The referrals are thoroughly considered and assessed by the school's designated team.

Teacher Referral Form provides timely and effective support to initiate an appropriate plan of action for students at various levels of need. Possible sources of referrals may include list of likely 'at-risk' students shared at the start of the academic year along with list of symptoms and triggers in the areas of concerns document, parent(s)/ guardian(s), teachers, and / or other school personnel. The quantitative (objective) and qualitative (subjective) student data collected are used to develop an intervention plan. That intervention plan is only shared with those involved in the referral process.

Pre-referral intervention is to identify, develop, and implement alternative education strategies for students who have recognized problems in the classroom before the student is referred to special education. The pre-referral team consists of the teacher, the parents/guardians, an administrator, and teachers involved in the education of the student. The teacher provides background information regarding the problem exhibited by the student and the team works together to develop possible solutions. The intent is to provide interventions that will help the student achieve success without entering special education. However, if these interventions do not improve the student's performance, then the student will be referred for an assessment to determine possible eligibility for special education services.

KG Admission Process

During KG admission, parents can declare if their child has Special Education Needs. The school ensures that students declaring SEN receive provisions to determine their support needs. Additionally, the inclusion team during KG admission conducts interview and observes all students for potential indicators of Special Needs. If the observed difficulty is moderate to severe, parents are requested to go for an external psychoeducational assessment to provide a comprehensive understanding. If difficulties are mild, the observations are shared with teaching and learning team in KG, such that interventions are streamlined to help overcome barriers at an early stage.

How we decide when a student's name needs to go on the 'Students of Determination' record

Stage 1: Primarily, school-wide screening conducted by SEED through teachers and Inclusion Specialists informs potential students who may be experiencing barriers to learning. Further psychoeducational assessment confirms the difficulty, level and category of barrier faced by the student, leading to engagement with all stakeholders and addition of identified student to the Student of Determination record. Provisions and support is made through personalized and targeted Individual Learning Plan/Individual Education Plan/Behavior Intervention Plan.

Stage 2: Teachers utilize various markers such as classroom observations, teacher evaluations, CAT4 and ISA assessments, diagnostic tests, and annual performance records to pinpoint students who might face obstacles to learning. They collaborate with parents to intervene and mitigate these barriers, aiming to support the students' learning progress.

Stage 3: This involves teachers completing a referral form, noting all relevant concerns in Academic, Behavioral, Socio-emotional, and Developmental areas as outlined in Referral Form 2.0, for persistent or unchanged concerns.

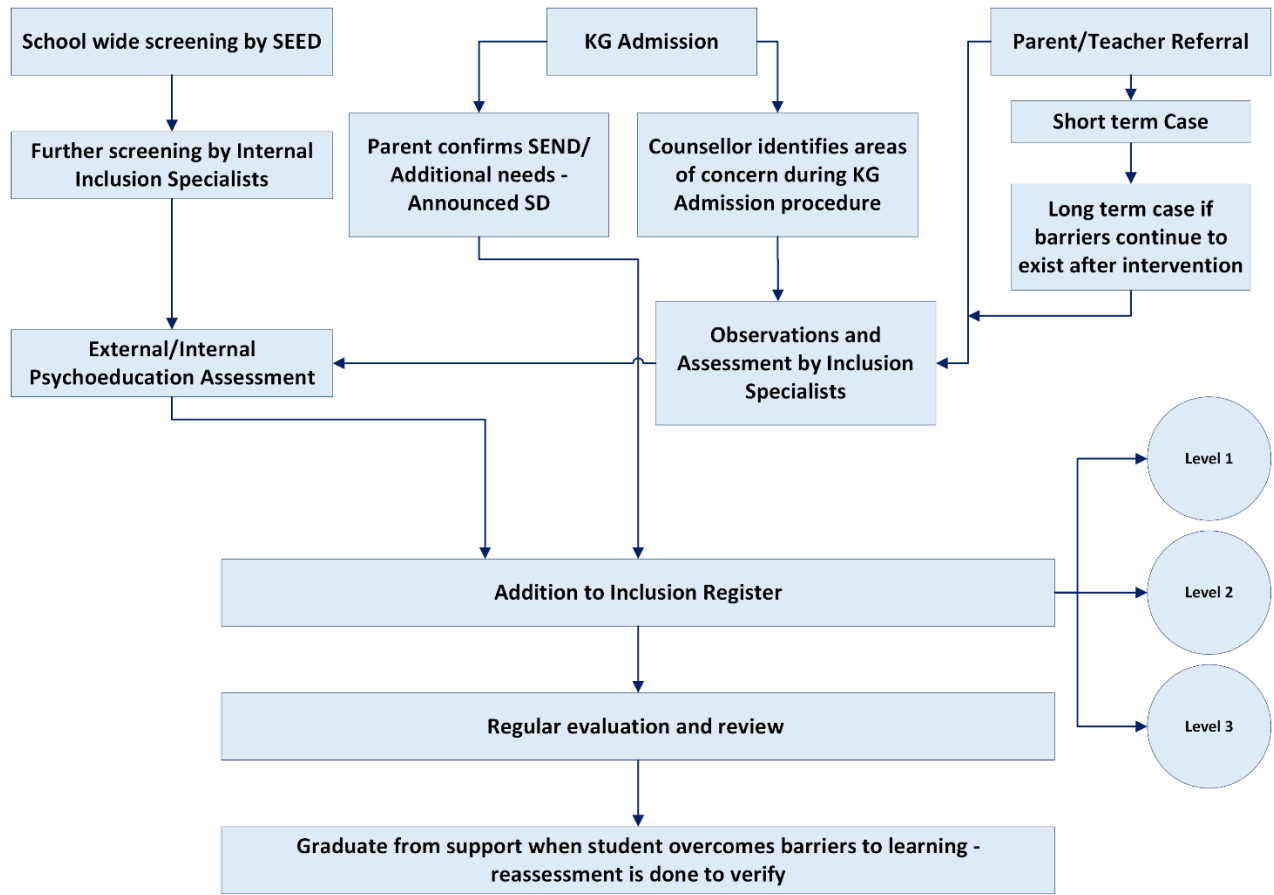

Stage 4: Upon receiving the referral form, the specialist team collaborates with the class teacher, subject teachers, observes the student in class, and engages with parents for input. Subsequently, if an assessment is deemed necessary, either internal or external psychoeducational assessments are conducted. Those encountering learning/cognitive and language/communication challenges are furnished with an Individual Education Plan (IEP)/Individual Learning Plan (for mild difficulties), tailored to their specific needs. Similarly, students encountering barriers stemming from behavioral issues receive a Behavior Intervention Plan (BIP) designed to address and support their behavioral challenges. Furthermore, students facing medical concerns that impede their learning progress, as well as those seeking external assistance such as psychotherapy or medication for psychiatric/psychological conditions, benefit from an Individual Support Plan (ISP) meticulously crafted to accommodate their unique circumstances and provide requisite support. Alternatively, short-term support is provided to alleviate barriers for students in cases where formal assessment isn't required.

Monitoring and tracking of students with barriers to learning is formally done regularly and tracked once a term through the ILP/IEP/BIP tracking using a 6-point rubric system. Assessment is ongoing, and the data is used for continuous discussions and monitoring. Identified needs are evaluated and discussed considering assessment results and through staff and parent discussions. As assessments are completed, the strategies are planned to ensure high quality provision for students with learning differences. IEPs/ILPs are developed and implemented with input from all stakeholders.

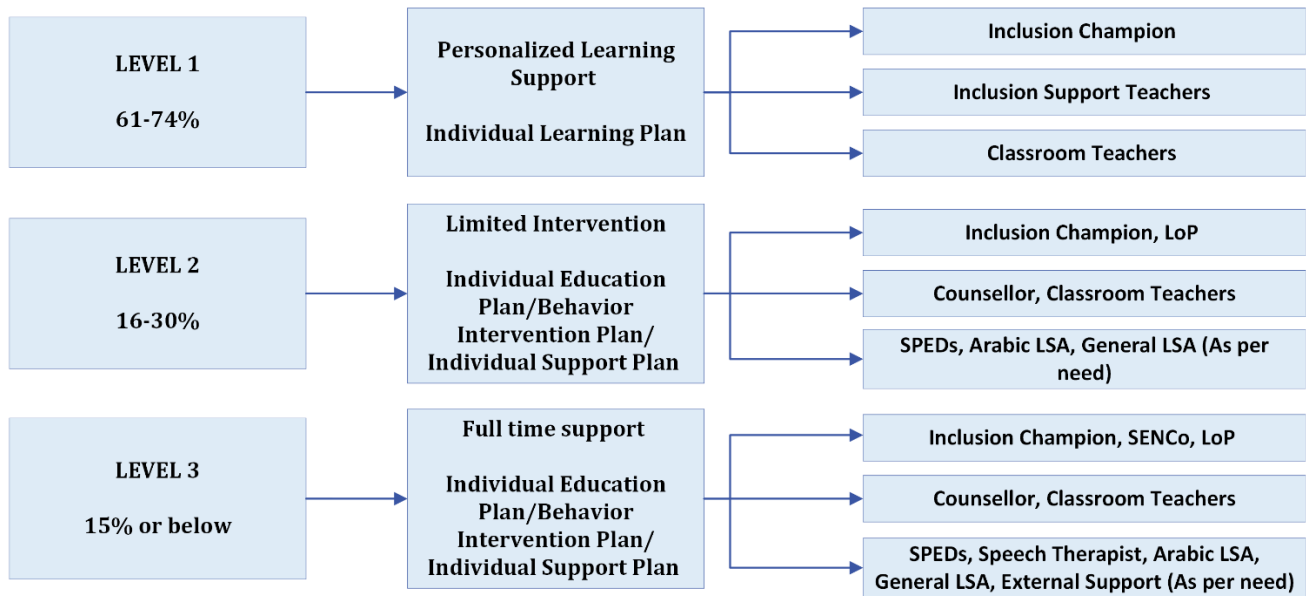

Parents are guided with appropriate information on approaching external specialists as and when required to result in improved identification and provisions. The Circle liaison with external professionals and Psychologists as required.

Case Conference is employed to formulate, assess, and update the individual provisions for students of determination. It is conducted at various intervals involving all relevant stakeholders to deliberate, create, assess, and amend the individualized provision. Each student receiving special education services has four case conference meetings within a 12-month timeframe. The committee is composed of the Inclusion Champion, Leader of Provision, Section Supervisor, Counselor, Inclusion Specialist Teacher (IST), Special Educator, Speech Therapist, Learning Support Assistant (LSA), and teachers.

Flow Chart for Students of Determination (2024-2025)

10. STRUCTURE OF PROVISION

Level 1 describes *high quality inclusive teaching* that takes into account the learning needs of all the children in the classroom. This includes providing differentiated work and creating an inclusive learning environment. Teachers meet a whole variety of needs in the class and collaboratively discuss feedback from joint observation by Inclusion Champion and teaching and learning team to ensure consistent implementation of inclusive practices. Every learner is entitled to good quality inclusive *First Level* teaching through effectively differentiated classroom practice. Counsellors develop ILP for level 1 learners after reviewing the progress in the '**ILP Tracker**' of the previous year and taking into account the feedback from the classroom teachers during case conference.

Level 2 describes specific, *additional, and time-limited interventions* provided for some children who need help to accelerate their progress to enable them to work at or above age-related expectations. Children who have been identified through the data, as having fallen behind the levels expected may be included in the Level 2 intervention. This is usually a personal support through Counsellor/Special Educator/Learning Support Assistants and/or curriculum modification to enable a student to engage with, and participate in, appropriately challenging learning experiences and achieve within age-related expectations. Support Teachers, Super Inclusive Teachers and or in-school specialists are likely to support this process by observing lessons and making recommendations as well as providing support through professional coaching and monitoring. Section Counsellor, Leader of Provision, and Inclusion Champion study the IEP/BIP/ISP and jointly observe the in-class support and provide teachers with constructive feedback after gap analysis.

Level 3 describes targeted provision for a minority of children where it is necessary to provide *highly tailored intervention* to accelerate progress or enable children to achieve their potential. This may include one to one or specialist interventions. Children who are progressing at a much slower rate than expected and who are attaining at a much lower level are likely to need Level 3 support: this is often (although not always) individual teaching sessions delivered by Special Educator. With individualized programs to accelerate progress the child should be able to make good progress although they may not close the attainment gap with their peers. This provision is 'additional to' or 'different from' the provision required to meet the needs of most of students within the school and is likely to include the use of specialist approaches, intervention or support services. Special Educator and/or Counsellors jointly observe the in-class support with the SENCo to ensure implementation of the goals and objectives stated in the IEP.

11. IDENTIFYING GIFTED & TALENTED STUDENTS

'Gifted and talented' are two adjectives that are used to describe individuals with great natural abilities. The term giftedness refers to 'a student who is in possession of untrained and spontaneously expressed exceptional natural ability in one or more domains of human ability.' These domains include intellectual, creative, social or physical abilities. The term talented refers to 'a student who has been able to transform their giftedness into exceptional performance.' Talented students demonstrate exceptional levels of competence in the specific domains of human ability. Parents of 'Gifted & Talented' learners are suggested to consider IQ test to determine giftedness in their ward. WISC Test (Wechsler Intelligence Scale for Children) is an IQ test administered to children between ages 6 and 16. The objective of the exam is to understand whether or not a child is gifted, as well as to determine the student's cognitive strengths and weaknesses.

Identification is strengthened through a range of ways including:

- Observations by teachers through '*screening checklist for teachers*'
- Interviews with parents followed by '*screening checklist for parents*'
- Student interest self-reports and **student interviews**
- Data of **standardized attainment tests**

Gifted and Talented

G&T students must meet both criteria

Highly Able/ Probable Gifted

Criteria 1

Based on CAT4

Students who score in any two or three batteries greater than or equal to **126** and in any one battery greater than or equal to **141**.

Criteria 2

Based on External Benchmark Tests

	ISA LEVEL
ENGLISH	7,8&9
MATHEMATICS	7,8&9
SCIENCE	5&6

Grade 5-10

Academic Achievers of the previous Academic Year

Grade 11

Stream toppers of the 1st term examination for the top 3 places
Subject toppers in the first term examination

Grade 12

Stream toppers of previous year's yearly performance
Stream toppers of the first term examination for top 3 places
Subject toppers in the first term examination

Criteria to identify 'Gifted and Talented' students in the Co-scholastic area is:

1. Sports achievers at CBSE zonal, cluster, national or international levels
2. First and second position winners in interschool events
3. Winners of prestigious events at the Emirate /UAE level for Spell Bee/Abacus/Environmental Programs/MUN/Arabic and Islamic competitions.

12. LESSON OBSERVATION AND FEEDBACK (LEARNING WALKS)

Learning Walks by Governor for Inclusive Education

The school is committed to fostering an inclusive learning environment where every student, regardless of their abilities or disabilities, receives tailored support for their holistic development. The Governor for Inclusive Education (SEED within school) plays a distinct role in ensuring that the principles of inclusive education are effectively implemented within our classrooms. Their monthly observations are intended to offer insights into the classroom dynamics, pedagogical approaches, and the extent to which differentiation strategies are employed to cater to students with disabilities.

Following each observation, the Governor for Inclusive Education collaborates with educators and circle of inclusion, offering targeted feedback and constructive suggestions to enhance differentiation practices. This feedback is provided in a supportive and developmental manner, aiming to assist teachers in refining their approaches to better meet the needs of students with disabilities. Furthermore, the feedback sessions serve as valuable opportunities for professional growth. Teachers are encouraged to engage in reflective practices, leverage the feedback provided, and participate in ongoing professional development tailored to inclusive teaching methodologies. The insights

gained from the Governor's observations and feedback sessions are instrumental in fostering a culture of continuous improvement. This iterative process ensures that our educators are equipped with the necessary support and guidance to continually enhance their differentiation strategies, ultimately benefiting all students within our diverse learning community.

Inclusion and Wellbeing Observation

Inclusion specialists, working collaboratively with the academic team, conduct regular classroom observations across all grades and subjects. Observations focus on identifying effective inclusive practices and areas for growth. Specialists and academic team jointly provide targeted feedback to teachers to enhance their inclusive teaching strategies focusing on classroom environment, classroom management, planning, and implementation of differentiation, in class assessment and feedback and embedment of social and emotional learning. Feedback from inclusion specialists and academic teams forms an integral part of professional growth for teachers. Specialists provide constructive feedback based on observations to support teachers in refining their inclusive teaching strategies.

Joint Observation Feedback

Joint observation of teaching practice and conversations involving multiple people with different perspectives helps develop horizontal expertise in teacher education. We have a team of experts who use observational evidence of all students of determination at different levels to equip our classroom teachers with the best practices and give them constructive feedback. This educative mentoring works to broaden their knowledge and expertise about the subject and as a consequence of their engagement educators develop shared practices and common perspectives.

Level 1 student support is observed by an expert from the T&L team and the **Inclusion Champion**, who gives helpful feedback to the teacher on the strategies used for the student in class. Each learner on the provision list is jointly observed.

Level 2 student support strategies are jointly observed by the **Counsellor/Special Educator and SENCo/LOP** to mentor the teacher in class once each term.

Level 3 learner support measures taken by the classroom teacher are strengthened with constructive feedback from the **SENCo** and the **Special Educator/Counsellor** who supports the learner. This is a scheduled term wise joint observation followed by group feedback to all teachers, ISTs, and section supervisor by the specialist team. During **Push-In Sessions**, students are supported through a joint effort of their class teachers and Special Educators. Class teachers coordinate closely with the special educators to plan and initiate teaching strategies, activities, and classwork to ensure the progress of students with additional learning needs in their respective classes.

13. DIFFERENTIATED CURRICULUM AND SUPPORT

We endeavor to underpin a high level of expertise and training of staff to support *students of determination* by:

- following the systems and procedures outlined in the *Inclusive Education Framework*;
- school leaders at all levels; including Principal, Section Supervisors, Head of the Departments, Inclusion Support Teachers, are responsible for ensuring that the curriculum; in its narrow and broadest senses, is personalized to match the needs of the learners;
- teachers develop a comprehensive understanding of barriers to learning, restriction to engagement within the curriculum and the ultimate impact on students' personal, social and educational outcomes;

- establishing Individualized Education Plans (IEPs), Individualized Learning Plans (ILPs), Behavior Intervention Plan (BIP) and Individual Support Plan (ISPs) specifically tailored to the unique need of individual students with barriers to learning;
- regularly evaluate the effectiveness of provision made for all students who experience barriers to learning and ensure that specialist expertise is secured where necessary;
- all teachers are proficient with inclusive education techniques, curricular modification, personalization of learning objectives and assessment strategies;
- provisions are continually monitored throughout the whole school by members of IST including Support Teachers;
- learning walks take place frequently and pupils also have the opportunity to express their views to members of IST;
- setting suitable levels of learning challenges (determined through comprehensive analysis and assessment);
- emphasizing the importance of, and creating opportunities to develop, a holistic learner profile, which helps all individuals to become responsible members of local, national and global communities;
- modified curriculum for Level 2 and 3 students is planned by the subject teachers in coordination with ISTs and HoDs;
- need for curriculum modification is recommended by the experts based on internal/ external assessment reports.
- depending upon curriculum modification effective interventions through counseling support, support from LSA or special educator is provided;
- every chapter is modified and the IEP/ILP and modified curriculum compliments each other, involving Learning Support Assistants, in planning and delivering the curriculum;
- school evaluates the effectiveness of provision every term made for all students who experience learning difficulties and ensures that specialist expertise is secured where necessary;
- students that require significant modification are supported with individualized curriculum expectations prepared by the inclusion team;
- students are suitably challenged at all levels, personalized learning and appropriate interventions result in students' achievement and personal development;
- parents and students are guided on the way forward with higher education through career talks and one-to-one guidance;
- provisions are continually monitored across phases by school leaders and the circle of inclusion;
- students are given ample opportunities to enhance their hidden talents and meet their personal and socio-emotional well-being needs through thrive program, co-curricular activities, and varied competitions;
- school has implemented the ASDAN curriculum to embed a structured system that promotes lifelong learning, entrepreneurship, and aspirational career pathways;
- students of determination moving towards CBSE Board classes are provided with learning pathway support by applying for special permission for provision of skill subjects and/or lower-level Math from the concerned authorities;
- IEP goals take into account a student's ability level, learning profile and individual needs. This is shared with teachers of all subjects, thereby bringing in consistency of expectations across all curricular areas;
- suitable challenge levels are determined through comprehensive analysis and assessment;
- IEP/ILP goals are reviewed termly and accordingly including curriculum modification, in-class support, counselling support, support from LSA or special educator is provided.

14. INCLUSIVE TEACHING AND CLASSROOM CULTURES

We ensure that the needs of all groups of learners are effectively met by:

- following the systems and procedures outlined in the *Inclusive Education Framework*;
- adopting **Universal Design for Learning**, providing multiple means of representation, expression, and engagement. This approach allows us to address the diverse needs of our student body and create a more inclusive and effective learning experience for all.
- maintaining clear and effective whole-school systems for accurate and timely identification of individual needs in relation to communication, learning, social-emotional wellbeing, and behavior;
- whilst in-school specialists (special educator/IST) lead the development of IEP/ILP, it is essentially the classroom teachers who are enabled to implement it and therefore accountable for its impact within the classroom;
- utilizing a variety of teaching strategies, activities, and assignments that accommodate the needs of students with diverse learning styles, abilities, and experiences;
- offering additional, systematic, targeted small group (level 2) and 1:1 instruction (level 3) within the Learning Centre;
- embedding extension and enrichment opportunities for G&T students throughout the curriculum and school;
- monitoring how planning and differentiation is undertaken throughout the school in order to ensure that pupils' different learning styles and learning needs are taken into account;
- analysis of data, focusing on the progress made by various identified groups of students, rigorous self-evaluation and action planning.
- Counsellors conduct School Day Observation to gather a holistic view of level 3 learners and provide feedback to teachers and LSAs for effective intervention.
- Special Educator (level 3) and Counsellor (level 2) jointly observe the in-class support with the SENCO to ensure implementation of the goals and strategies as stated in the IEP.
- Students of determination in Grade 9 are provided with alternate learning pathways, engaging them in active skill-based education in alignment with their interests and strengths.
- Push-in sessions are conducted weekly wherein the specialist sits with the learners in lessons to provide guidance to the teacher and student, to promote active engagement and learning.
- Pull-out sessions equip the learner with strategies and skills that lower their barrier to learning and hone age-appropriate skills, so it equips them to become active learners in the classroom.
- Differentiated instruction, suitable learning challenges at all levels, personalized learning and appropriate interventions result in meaningful learning and progress.
- Teachers effectively utilize learnings from training conducted by the Governor of Inclusion in classroom to secure scaffolded learning of students.
- Teachers promote skills, confidence, and resilience by honoring the choices and decisions that students make and supporting the goals that the students set.

15. ASDAN - EMPOWERING STUDENTS THROUGH PERSONALIZED LEARNING

Every child is different, consequently we are developing a diverse and inclusive curriculum that supports every learner to achieve their full potential by providing flexible and engaging programs. **ASDAN (the Award Scheme Development and Accreditation Network)** offer imaginative ways of developing, recording, and certificating student's personal achievements.

The programs and qualifications will help our learners to develop skills for learning, work, and life. As a fully registered and accredited ASDAN Centre we offer a wide range of courses and options to students in fitting with their learning needs. ASDAN programs and qualifications blend activity-based curriculum enrichment with a framework for the development, assessment and accreditation of key skills and other personal and social skills, with emphasis on cooperation and rewarding achievement.

16. ASSESSMENT AND OUTCOMES

Assessment and its associated feedback are essential to student learning. Timely and appropriate identification and assessment are important factors in ensuring that appropriate intervention commences as soon as is feasible.

- Assessment is continuous and happens at every stage routinely as an integral part of teaching and learning - Multiple Assessments (M.A), Subject Enrichments, PT1, Half Yearly and Annual exams.
- Information from different kinds of assessment i.e., attainment, CAT4, NGRT and ISA help in setting aspirational goals.
- Self and peer assessment enables students to better understand assessment expectations and work towards improving their own performance. Student input is taken in developing IEP against which feedback is taken from students during closure of IEP.
- Problem-based learning frequently involves elements of group work composed of students with mixed abilities, experiences, academic cultures and/or motivations.
- Modified assessment and accommodations are planned for level 2 and 3 students based on assessment reports and in coordination with HODs and IST members.
- Students of Determination are provided with assessment accommodations and concessions as per the recommendations from the Circle of Inclusion.
- The data is analyzed to assess the progress – accordingly, almost all Students of Determination make expected or better than expected progress against targets set in the IEP/ILP.
- The progress made against IEP/ILP targets is reviewed and consolidated after every term end and is shared with parents during H2H & term-wise meetings.
- Assessment happens at every stage routinely as an integral part of teaching and learning.
- Triangulation between different kinds of assessment i.e., attainment, CAT4, and ISA help in leading students to work to the best of their ability.
- Self and peer assessment enable students to better understand assessment expectations and work towards improving their own performance.
- Problem-based learning frequently involves elements of group work composed of students with mixed abilities, experiences, academic cultures and/or motivations.
- Assessment satisfies several different purposes in addition to student learning, such as classifying achievement, quality assurance and supporting lifelong learning.
- Modified assessment and accommodations are planned for level 2 and 3 students based on assessment reports and in coordination with HoDs, Class Teachers and IST members.
- Progress in terms of knowledge, skills and understanding is evidenced through the written work in notebooks, written and non-written formative assessment tools and progress in subject enrichment activities.
- Student work reflects knowledge, skills & understanding gained by them. Detailed marking of all forms of students output is done by teachers and constructive feedback on next steps of learning is given to bridge gaps and promote learning skills.
- The support provided to them is evident in lessons, as a range of teaching and learning strategies are currently being used and this is enabling students to make progress.
- Progress of SD is monitored over time using evidence from a range of sources (lessons/continuous assessments/individual skill-based targets) students are then withdrawn from LC/LSA/assistant teacher support and monitored for a given period before being weaned off.
- The Learning Centre and the Special Educators actively involve the students with SEND in drawing up their targets in IEPs.

SCHOOL ASSESSMENT SYSTEM

The outcome of teacher assessment and internal processes, which benchmark, monitor and analyze student performance provide valuable information to signal the need for further assessment and screening: fluctuations in student achievement level is monitored closely, and sustained periods of academic decline is identified and examined in order to remove any potential barriers to success. Particular indicators of concern may include:

- a student who makes significantly slower progress than that of their peers starting from the same baseline;
- a student who fails to match or improve upon previous progress rates;
- a student whose gap in attainment, when compared to same-aged peers, widens.

Targeted pre-referral discussions with parents, student observations, and the analysis of behavior and attendance patterns over time provide valuable information to inform further assessment. Members of the inclusion support team such as the support teacher and the leader of provision for students of determination conduct these discussions and observations.

Names of internal psychometric assessments for Students of Determination

- Brown ADD
- Wechsler Adult Scale of Intelligence II (WASI II)
- Beck's Anxiety Inventory
- Wide Range Achievement Test-5 (WRAT-5)
- Beck Youth Inventory-2 (BYI-II)
- Childhood Autism Rating Scale-2 (CARS-II)

DIAGNOSTIC ASSESSMENT

From an *educational perspective*, a school-based diagnostic assessment is a form of pre-assessment that allows a teacher to determine a students' profile of strength, weakness, knowledge, and skills and provides important information to help guide lesson planning and curriculum modification. The assessment outcome enables educators to make predictions about future achievement and inform expectations about student learning and performance within the school.

From a *medical perspective*, a diagnostic assessment is a formal and standardized procedure, which is applied by an appropriately qualified and licensed professional. The purpose of this type of diagnostic assessment is to examine the developmental/functional profile of children in order to provide information about areas, which may require further monitoring, or support.

17. RECORD KEEPING

Students of Determination have individual digital case files, learning support log, updated SD record, and IEP/ILP Tracker which is regularly updated by the circle of inclusion to record all information about a child.

Students receiving individual support have an Individual Education Plan/Behavior Intervention Plan or an Individual Support Plan. The intervention is planned with the class teacher and shared with parents and the learner. The goals are linked to the student's class based individual targets where possible. The department monitors progress towards the IEP/BIP/ILP target regularly with the student and class teacher. Formal meetings with the parent to review the IEP/ILP takes place twice per year. Concerned teachers, section supervisors and circle of inclusion maintain assessment reports from outside agency and teachers have access to the records for the children they teach only as these records are confidential.

Medical Records

Some students have reports/records from medical/health professionals. The School Medical Officer who passes on any relevant information and teachers maintain these.

18. BEHAVIOUR INTERVENTION PLAN FOR SD

A Behavior Intervention Plan (BIP) is used as a proactive action plan to address behavior(s) that are impeding learning of the student or others. BIP first focuses on understanding 'why' the behavior occurred and then focuses on teaching an alternative behavior that meets the student's need in a more acceptable way. This includes making instructional and environmental changes, providing reinforcement and effective communication. BIP includes positive strategies, program modifications and supplementary aids to replace a student's disruptive behavior with positive behavior in order to allow the child to be educated in the least restrictive environment. The BIP team comprises of the student, teachers in class, parent, IST, a counselor, and section supervisor.

Student Self-Reflection think sheet promotes self-regulation of choices, behaviors and feelings. This form is designed for students to reflect on their behavior if they do not meet the guidelines as stated in the ***student code of conduct policy***.

19. SELF-ADVOCACY SKILLS FOR STUDENTS WITH LEARNING DIFFICULTIES

Helping students with learning disabilities become self-advocates and build on self-reflection skills is a critical step in their education. Teachers play an important role in these steps that helps students to become independent learners. Self- advocacy is the process of learning how to communicate one's needs effectively and acquiring help in achieving learning goals. This means being able to understand the nature of their disability, articulate their strengths, and understand their weaknesses. In order to self-advocate, students need to be able to know what accommodations work best for them, and they need to be able to speak with teachers about these needs in clear and succinct ways. Parents participate in the IEP/ILP/BIP meetings which is an important and empowering opportunity for the students to reflect about what they need to be successful in the classroom and to follow up at home while completing their assignments with support from parents.

Four Steps to Self-Advocacy

- Know your strengths
- Be aware of your weaknesses
- Identify strategies to overcome those weaknesses
- Effectively communicate those needs to others

20. RESOURCING FOR INCLUSIVE EDUCATION

Inclusive education refers to a wide range of strategies, activities and processes that seek to make a reality of the universal right to quality, relevant and appropriate education.

We enhance the development of inclusive education by:

- collaboration between all stakeholders to develop strategies;
- listen to and involve all learners in planning and implementing;
- identify, unlock and use resources in the community;
- allocate resources to support the learning of all students;
- listen to teachers, offer support, promote team teaching, offer relevant practical training;
- develop and implement policy to respond to diversity and combat discrimination;
- develop child-to-child and peer tutoring approaches;

- create links with community organizations and programs;
- develop whole school approach – joint responsibility and problem-solving
- providing expertise and sharing their knowledge and experience of working with students who experience barriers to learning;
- providing specialist advice, support and educational services to students and families who experience barriers to learning;
- development and delivery of individual educational plans in common learning environments;
- providing external support to individual students as requested by parents or guardians
- support the identification of students who experience barriers to learning, and assist in the development and provision of related interventions;
- maintaining data and other information about students who experience barriers to learning from early years to senior secondary;
- networking with local service providers to improve the quality of support;
- facilitate parental access to services needed by their child who experience barriers to learning;
- monitor and evaluate the quality of education provided by special education centers in accordance with common inclusive education standards.

Assistive Technology:

Achieve 3000 provides online differentiated instruction with the goal of improving reading comprehension of students and teachers use Achieve3000 to establish a baseline Lexile reading level for their students then incorporate the site’s numerous standards-aligned lessons and tools to foster academic growth and track student progress.

Thrive Program

The Circle of Inclusion has implemented ‘Thrive Program’ where counsellors teach students the knowledge, attitudes, and skills necessary for academic, career and social/emotional development. The work of school counsellor aligns with the school’s mission to support all students’ academic achievement as they prepare for the ever-changing world of the 21st century. This **Character Education Program** uniquely termed as ‘Thrive Program’ is executed during counsellor’s productive proxy classes with students. The topics for the different grades have been identified based on the gap analysis from the ‘Dubai Student Wellbeing Census’ and common concerns that surface through student wellbeing requests.

SC(A)RF Initiative

Vision: Create ardent individuals ready for college admissions

Mission: Enable the students to reach up to the full potential which will guide them in becoming independent and responsible individuals.

Purpose:

- Develop soft skills essential for high school students.
- Empower students with skills for college readiness.
- Instill qualities of being independent.
- Equip students to prepare a winning college application.

Why SC(A)RF? The acronym stands for: S - Social media C -Character building A -Academics R -Responsibility F -Financial literacy.

Student Wellbeing Request

Our mission at the Indian High Group of Schools is to facilitate each student's personal, social, mental and academic development through a plethora of services that includes both individual and group counselling sessions offered by experienced, highly qualified, and specially trained counsellors. All learners are entitled to confidentiality and the information brought to the session is held in confidence between learner and the school counsellor unless there are concerns about the student's safety or another person's safety.

Experts in the Circle of Happiness, Inclusion and Wellbeing assist in identifying student's interests and abilities, enhance productivity, accurate decision-making, and conflict-resolution skills along with other competencies that remediate student deficits like performance anxiety or low self-esteem due to bullying, strengthen their unique capabilities and enable the young learners to participate in the society as responsible future leaders. Students submit the 'Student Wellbeing Request' form which can be accessed through the student portal. QR codes leading to the portal are also placed in strategic locations in the school.

Integrating the Expressive Arts into Counselling Practice is used as a part of the strategy for a wide variety of behavioral, emotional, and mental health concerns. The focus of expressive arts therapy is on the therapeutic effect of creative experience, and it highlights the human capacity to transform thoughts, emotions, and experiences into tangible shapes and forms.

Schoolwide **Social and Emotional Learning (SEL)** integrates academic, social, and emotional learning across all school contexts. Effective social and emotional learning program at school involves coordinated classroom practices that help students develop the following five key skills: Self-awareness, Self-management, Social-awareness, Relationship Skills, and Responsible Decision Making. Promoting social and emotional development for all students in classrooms involves teaching and modeling social and emotional skills, providing opportunities for students to practice and hone those skills, and giving students an opportunity to apply these skills in various situations.

21. STAFF PROFESSIONAL LEARNING PLAN

Targeted professional training and support for classroom teachers is a critical component of inclusive classrooms. The school governing body adequately allocates the budget to meet the needs for students of determination. The 'Governor for Inclusive Education' executes monthly training sessions on identified topics to support classroom teachers with required skills and resources on identification, teaching strategies, behavior management etc. All Support Teachers are professionally qualified with a Specialized Diploma. The school makes use of local staff training and whenever possible staff attend local courses and conferences. New learning from on-going webinars organized by recognized platforms is shared with SLT, included in school improvement action plans and shared with concerned departments.

The Indian High Group of Schools support a wide portfolio of CPD approaches in order to facilitate school improvement, assist teachers to meet the Teachers' Standards and the Professional Standards. In addition, we establish a culture of innovation strengthening the capacity for scientific research and innovation in accordance with quality, efficiency, and transparency standards. The school holds CPD training days during the academic year that is planned in advance by the Senior Leadership Team. The content of which is informed by the needs of the school outlined in the Institutional Planner and the School Improvement Plan.

A **CPD portfolio** helps keep track of learning progression from year to year. It is an individual's evidential documentation of their Continuing Professional Development obligations. Contained within a CPD portfolio is the register of activities, such as training courses, workshops and educational events attended, the number of

CPD points the individual has completed for any given year, as well as a copy of the delegate CPD certificates for each activity.

22. CATEGORISATION FRAMEWORK FOR STUDENTS OF DETERMINATION

The following framework is based upon the UAE unified categorization of disability. It provides schools with an important structure to support the identification of students of determination.

I. Cognition and learning

1. Intellectual disability (including Intellectual disability - unspecified)
2. Specific learning disorders
3. Multiple disabilities
4. Developmental delay (younger than five years of age)

II. Communication and interaction

5. Communication disorders
6. Autism spectrum disorders

III. Social, emotional and mental health

7. Attention Deficit Hyperactivity disorder
8. Psycho - emotional disorders

IV. Physical, sensory and medical

9. Sensory impairment
10. Deaf-blind disability
11. Physical disability
12. Chronic or acute medical conditions

23. PARENT PARTNERSHIP: COMMUNICATION, SUPPORT & GUIDANCE TO PARENTS OF SDs

The school places parents at the center of its provision for students with learning differences. It takes innovative actions to remove barriers to communication with parents, including apt use of technology. Class teachers have an in-depth understanding of each student's needs which, when necessary, informs insightful and regular updates to parents. There is ongoing and effective cooperation among the school, teachers, and parents of students with additional learning needs, as appropriate in the interest of student through exchange of information, periodic reports, setting educational goals and participation in every step of the educational process. Parents and guardians are given the opportunity to be involved in many aspects of their child's education. Class teachers alongside Circle of Inclusion and Section Supervisors, have the responsibility to invite parents and guardians to discuss their child's progress, the targets their child is working towards, and the support their child is receiving.

- School provides parents with all the information on programs for students with additional learning needs and creates positive relationships with the parents based on mutual trust and effective communication.
- Parents are notified of the dates for H2H sessions, meetings, assessments as related to the education of their children along with stating the purpose of such meetings.
- School provides parents with periodic reports on the performance of students in achieving the goals set for them in the educational plans.

- Parents are notified before any formal evaluation of the student, and before any change in the places where services are provided.
- School encourages parents to participate and volunteer in students' or school's activities for the sake of their children.
- School promotes strong relationships with the parents through Parent Focus Groups, and Open House.
- Parents are aware about the categories and programs for students of determination.
- Parents give input while Counsellors and Special Educators develop IEP for their ward.
- Information provided or observed by school staff is kept confidential and only shared with individuals working with their child.
- Parents are required to attend meetings or assessments related to the education of their children with the need to focus on their involvement in the decision-making process.
- Effective communication and correspondence is ensured with respect to their child and their role in the implementation of educational plans.
- Parents play an important role in the assessment process, and whilst medical assessments or diagnoses are not required for admission, they are expected to share any useful information about their child's needs and abilities. This includes providing the school with copies of any existing medical assessments, diagnoses and therapy reports.
- School cannot use the in-school assessment information to formally 'diagnose' child with a specific disorder, condition or disability. Only an appropriately licensed and qualified specialist can provide a medical diagnosis. Some parents may wish to obtain medical assessments or diagnostic reports for their child as part of, or following, the in-school assessment and identification process. As student progresses through the school, medical assessments may be required to
 - Apply for access arrangements and accommodations for students to be supported to complete examinations;
 - enable the school to apply for a 'language exemption' for learners;
 - investigate the level and cause of the barrier/s to learning through implementing a comprehensive range of assessments.
- Parents hold unique knowledge of their child's development and ability. Consequently, it is essential that they are engaged as a valued partner during the in-school assessment and identification process. This includes:
 - holding discussions with parents about their child's developmental, educational and medical history;
 - explaining the assessment and identification activities that will take place;
 - informing parents of assessment outcomes and related identification indicators;
 - exploring the options for providing further support for the child.
- On some occasions, the provision outlined within the IEP may require additional services which are not typically available as part of the standard school service for Students of Determination. In this situation, the school establishes an Individualized Service Agreement with parents. This agreement will:
 - explain the reason why additional services are required;
 - define the responsibilities that members of the school team, parents and others have in delivering these additional services;
 - describe the arrangements to monitor and review the impact of these additional services;
 - detail the amount to be charged to parents in order to purchase these additional services. The charge must represent the actual cost of the service/s.
- Parents have access to helpful guidance, training and support within school and this may be achieved through some or all of the following:
 - school's systems to promote parental engagement, such as surveys, support networks, information workshops, training sessions, parent talks; H2H etc.

- dedicated education development and review meetings;
 - informal information updates;
 - individualized communication methods, such as emails, telecons or zoom meetings.
 - formal reports, including information about achievements within the curriculum and updates on the student’s progress towards their personalized targets, including IEPs.
- School provides opportunities for parents and caregivers to better understand SEND through regular ‘Parent Talks’, resources in form of regular infographics and support mechanisms available to them and their families.
 - Term end meetings are held to review the progress made and shared with parents.
 - Parent feedback is taken in parent involvement form and collaborative interventions planned during case conference meetings.
 - In exceptional circumstances, parents are supported in the application of special permissions from KHDA to cater to the needs of high need students. Parents approach school with required documents for exemption in Arabic and Hindi language and school supports their application to request regulatory authorities for approval.

24. PARENT REFERRAL FOR COUNSELLING SUPPORT

Parents who have concerns regarding their ward’s behavioral, academic, developmental, or social-emotional issues complete an online parent referral form. This service is completely confidential and secure. Once completed, the referral form is accessed by the Leader for Provisions who determines where the referral should go from that point. After discussing the case with the parent, the referral form and supporting documents are either forwarded to a teacher, school counselor or supervisor depending on the issue or the type of need.

25. DEFINITIONS

Definitions from the ‘Dubai Inclusive Education Policy Framework’ (2017) and ‘A revised categorization framework for students of determination (2019-20):

INCLUSIVE EDUCATION is about ensuring access to quality education for all students by effectively meeting their diverse needs in a way that is responsive, accepting, respectful and supportive. This is evident through student engagement and participation in an education program within a common learning environment with the benefit of targeted support that enables the reduction and removal of barriers that may lead to exclusion.

DISABILITY: “A social condition that occurs when an individual with a long-term limitation, experiences attitudinal, social, and environmental barriers that prevent full and effective participation within a community. A disability is the result of an individual’s interaction with society and is not an attribute of the person.”

STUDENT OF DETERMINATION (SD): ‘A student of determination is a student with a long-term physical, mental, intellectual, or sensory impairment which, in interaction with various barriers, restricts the student’s full and effective participation in education on an equal basis with peers of the same age.

26. EVALUATION AND REVIEW

The policy is revised annually or whenever the regulatory bodies like MOE and DSIB make changes in the regulations. The school has an action plan to support the implementation of this policy with clearly identified monitoring and evaluation opportunities. Our commitment to support the students of determination is reflected in our Strategic Implementation Plan (SIP). This policy and the success of the school’s provision is reviewed annually by the SLT.
